

# what we do for you

We help and protect **children** and **young people**, look after children in care, and help schools improve.

We support **elderly** and **vulnerable adults**. Helping people support themselves at home, organising care home placements and making sure people are kept safe.

We maintain more than 4,000 miles of **roads**. Fixing potholes, looking after street lights and traffic signals, organising school transport and managing residential parking.

We work hard to attract **investment** and **jobs** to the county. Driving improvements in things like broadband and infrastructure.

We also have an extensive network of **libraries**, we **register** births, deaths, marriages and civil partnerships, give advice on major **planning** applications, and help manage waste and recycling.
